PROFESSIONAL SUMMARY

Development Studies with IT background, building practical skills in data analytics through hands-on projects. Familiar with Python, SQL, pandas, NumPy, exploratory data analysis, data quality checks, and business reporting. Interested in using evidence and data to support business decisions, community development, and NGO programmes.

TECHNICAL SKILLS

Programming: Python, SQL
Data analysis: pandas, NumPy, data cleaning, exploratory data analysis, KPI analysis, cohort analysis, A/B testing fundamentals
Visualization and reporting: charts, dashboards, analytical reports
Tools: Jupyter Notebook, Git, GitHub, VS Code

DATA ANALYTICS PROJECTS

Retail Sales Analytics — Capstone Project

• Cleaned and analysed 4,998 records from a synthetic retail dataset.

• Calculated KES 304,062,595 in net sales and KES 78,836,895 in gross profit, with a reported gross margin of 25.93%.

• Developed eight SQL analyses and three analytical notebooks covering data cleaning, analysis, and reporting.

Repository: github.com/kimirifelix-droid/plp-capstone-a-felix-kimiri

PesaPap Growth Analytics

• Developed a practice fintech analytics project covering transaction analysis, customer segmentation, cohort analysis, and A/B testing.

Repository: github.com/kimirifelix-droid/plp-da-a7-pesapap-growth-analytics

Duka Board Report

• Analysed 1,000 synthetic records and reported KES 81,391,500 in revenue for January to June 2026.

• Summarised business performance using product, branch, channel, and period-based metrics.

Repository: github.com/kimirifelix-droid/plp-da-a6-duka-board-report

Student Performance Exploratory Data Analysis

• Explored 1,200 student records and examined the relationship between study hours and student performance.

Repository: github.com/kimirifelix-droid/plp-da-a5-student-performance-eda

Mobile Money Agent Data Cleanup

• Practised data quality checks and cleaning using generated transaction and agent records.

Repository: github.com/kimirifelix-droid/plp-da-a4-agent-data-cleanup

EDUCATION

Development Studies with IT
Institution: Tom Mboya University
Graduated: 2025

PROFESSIONAL INTERESTS

Data analytics, evidence-based decision-making, business intelligence, community development, and NGO programme support.
